Dear Customer:

The Janssen Ortho Patient Assistance Foundation (JOPAF) is a private tax-exempt charitable foundation that provides medical devices and medicines to uninsured patients with limited financial resources. We are pleased to inform you that we have received a generous donation from Therakos, Inc. This donation allows JOPAF to offer UVADEX® (Methoxsalen) Sterile Solution and UVAR XTS photopheresis procedural kits for use with the UVAR® XTS™ Instrument to qualifying patients free of charge.

In order to qualify for assistance, patients must meet specific financial criteria and cannot have access to any public or private insurance coverage for UVADEX® or the UVAR XTS photopheresis procedural kits. Both the patient and their licensed health care provider must complete the attached application. The completed application can be returned via fax or mail and an eligibility decision will be communicated in writing to both the patient and the provider. Medication and kits will be sent directly to the treatment facility, as requested by the provider on an as needed basis, for the prescribed treatment period.

Please feel free to contact the program at **1-800-652-6227** with any questions you may have or to request additional applications. Patient Assistance Specialists are available from 9am to 6pm Eastern Time, Monday through Friday, to answer your questions or assist with the enrollment process. We look forward to working with you to provide greater access to your patients that require these products.

Sincerely,

Irene L. Infanti, R.N., MSN
Director, Patient Assistance
